Aselda,

Do you have a target date for providing A035, Notification of Air Releases, Unit Upsets, and Outside Complaints, referred to in Shell's Emergency Response Plan? Presumably, it is a document already in existence.

Please let me know when we should expect it.

Thanks,

**Julie A. Vergeront**

We don't feel comfortable sharing the report before it's been finalized, but we can share the emissions event report when submitted to NWCCA in the meantime. Would that be helpful?

Is there a preliminary investigation report you can share before the final report is completed?

Hi Julie – we will provide the investigation report when it's been completed, which I understand will take a month or two given the depth of the investigation. Thanks.
